

MIC Seminar, Cape Town (South Africa)

The South African leg of the competition seminars was held on 28 October in Somerset West, just outside Cape Town. The seminar coincided with the 3rd Space Industry Seminar hosted by F'SATI, and also our annual CubeSat workshop.

The turnout was impressive. The seminar was attended by about 60 students, government officials, academics and representatives from industry. Mr Craig Clarke from Clyde Space (Glasgow) and Mr Thomas Schirmann of EADS Astrium were also contributing to the discussion.

The plan is to organise a break-away for students who wish to take part in the competition. This break-away will take place on 2 and 3 December, with follow-up sessions as required.
